1. Organisation Overview:

- ❖ F1 Resellers [Retail Store]
- ❖ F1 Resellers has been providing affordable, unique fashion and vintage gems since 2000
- ❖ Mission Statement

At F1 Reseller, our mission is to give new life to pre-loved fashion and goods by offering affordable, high-quality thrifted items while promoting sustainability, individuality, and community. Since 2000, we have been committed to reducing waste, making style accessible to all, and creating a welcoming space where every item has a story and every customer finds value.

- ❖ Vision Statement

Our vision is to be a leading destination for conscious consumers, inspiring a shift toward sustainable shopping by redefining thrift retail as stylish, reliable, and impactful. We aim to grow a community that embraces reuse, celebrates uniqueness, and contributes to a more sustainable future.

- ❖ F1 Reseller targets budget-conscious families, young adults, and environmentally aware consumers by offering affordable, unique thrifted items in a welcoming, family-friendly environment.

2. Website Goals and Objectives:

- ❖ Goals for The Website
 1. Increase online visibility and make the store easily discoverable
 2. Enable e-commerce functionality for selling products online
 3. Attract new customers and expand the customer base
 4. Provide clear and useful information about products and services
 5. Develop a basic delivery and order management framework that will allow the business to easily introduce and manage delivery services in the future as it expands.
- ❖ Key Performance Indicators (KPIs)
 1. Website Traffic
 2. Online Orders
 3. Customer Inquiries
 4. Conversion Rate
 5. Repeat Customers

3. Proposed Website Features and Functionality:

- Essential Features

- 1. Homepage**

- The homepage will provide an overview of the business, highlighting featured products, promotions, and key information. It will serve as the first impression and guide users to other sections of the website.

- 2. About Us Page**

- This page will share the history of F1 Reseller (established in 2000), its mission, and its focus on affordability, sustainability, and community.

- 3. Products**

- A dedicated section where customers can browse available thrifted items, view prices, and eventually purchase products online.

- 4. Contact Us Page**

- This page will include contact details such as phone number, email, and store location, as well as a contact form for customer inquiries.

- 5. Gallery**

- A visual showcase of featured items, new arrivals, and unique thrift finds to attract and engage customers.

4. Design and User Experience:

- ❖ Colour Scheme:

- Red** will be used as the primary accent colour to draw attention to important elements such as buttons, promotions, and featured products. It represents energy, excitement, and urgency.

- Black** will be used for backgrounds, text, or sections to create contrast and give the website a sleek, professional appearance.

- White** will be used as a base colour to ensure clarity, readability, and a clean layout.

- Typography: Barlow Condensed paired with DM Sans, Headings for titles (H1, H2) and paragraphs (p) for descriptions
- Layout and Design: This website will use a simple, structured layout with a header, which includes the store's logo and a navigation bar
Navigation bar will be consistent in all pages
- User experience considerations:
 1. Responsive design that works with both mobile and desktop
 2. Easy navigation with clearly labelled hypertext links

3. A red, black and white colour scheme that works to create an atmosphere set for racing
 4. Content will be organised into sections for easy reading.
- Wireframe

5. Technical Requirements:

- Programming Languages & Frameworks: HTML for structure, CSS for styling and responsive design and JavaScript for interactivity. No Framework is required at this stage
- Hosting: There are a lot of sites that offer hosting, The use of Github's hosting services is cost effective as they offer free or low-cost hosting services, as the business grows. The business may transition into a cloud infrastructure like Amazon Web Services for better hosting
